

# Advanced English

## Be College Ready!

The **Crabapple Tutoring Advanced English Program** is a unique service designed to enhance a student's mastery of college level aspects of the English language. Based on the results of a diagnostic English assessment, an individualized program is designed to build high school and college level skills in the following areas:

**Advanced Reading** focuses on building vocabulary and comprehension skills, as well as increased reading speeds. These skills are needed to effectively deal with the increased, more complex workloads of high school and college.

**Advanced Writing** helps the student plan, create and edit the variety of essays and theses they will complete as they move through their educational experience. Timed essay writing helps each student get ready for the SAT and ACT tests.

**Advanced Language Arts** applies the rules of the English language to material the student will see in their class work. Grammar, mechanics, usage, vocabulary, sentences, and paragraphs are all part of this high level program.

**Advanced Study Skills** teaches skills required for peak performance at the high school and college level. Time management, note taking in class and from text books, test taking strategies, and techniques for remembering information are all included in this part of the program.

### The High School Programs feature:

- Diagnostic assessment with prescriptive process
- An individualized program
- 3:1 student/teacher ratio
- A nationally renowned curriculum
- Skills mastery focused
- Caring/trained/motivating instructors
- Confidence building
